

eSATA
Extended Video Storage**Description:**

The Extended Video Storage (EVS) device allows for additional storage (from 2 to 16 Terabytes) to be added to an existing recorder. This EVS works with the iNEX, XDi20, ET family of recording devices. The EVS uses the recorder's eSATA port(s) for connection and has RAID options for redundant storage. The rack-mountable metal housing and toll-less design makes this device an easy addition to any system.

Specifications:**Model**

CREVS4R20-2TB	2 Terabytes
CREVS4R20-4TB	4 Terabytes
CREVS4R20-6TB	6 Terabytes
CREVS4R20-8TB	8 Terabytes
CREVS4R20-9TB	9 Terabytes
CREVS4R20-12TB	12 Terabytes
CREVS4R20- 16TB	16 Terabytes

General Operating

Product Material	Metal
Dimensions	18.90" x 1.73" x 13.62" (440 x 44 x 346mm)
Power Supply	40W Max
Approvals	CE and FCC
RAID formats	RAID 0, RAID 1+0, RAID 5
